Radio Tarchira

★ You can choose to listen to one of the preset or the player will adjust the volume of the playback to suit the quality of the network. ★ If the player detects the internet, the program will begin to play the stream automatically and adjust the volume to suit the network. ★ You can make a list of stations by clicking the radio button next to the program name. ★ The quality of the stream is variable, but it is enough for a "trial and error". ★ The level of the network at a given time in terms of "quality of the network" is displayed in the window. ★ The program is also able to take the playlist of the stations from the "List stations" button. ★ The radio Tarchira is able to distinguish the sign of the stations and the program name with help from the playlist. ★ You can easily switch between the "Live" or the "Named" from the main window. ★ You can switch the frequency of the stations from the "Switch frequency" button. ★ The bandwidth of the radio station is detected and the program is able to "change" this channel to suit the network quality. ★ The time zone of the radio station is detected and the program is able to "change" the time to suit the time zone. ★ The program is also able to automatically switch to your chosen station when it arrives. ★ You can save the program and play it in the future. ★ You can switch from playlist to the player and back again. ★ You can easily stop the playback by double-clicking on the name of the station. ★ You can remove the program from the list of stations. ★ You can make a choice of the station from the radio button and the program will play that station. ★ You can choose whether to listen to the station as a slideshow or play it straight. ★ You can choose to play the song on the station as a slideshow or play it straight. ★ You can choose to play the playlist of the station as a slideshow or play it straight. ★ You can choose to play the playlist of the station as a slideshow or play it straight. ★ You can choose to adjust the volume or pause the stream. ★ You can save the station as a file and listen to the station offline. ★ You can decide whether to listen to the station as a slideshow or play it straight. ★ You can decide whether to adjust the volume or pause the stream.

What's New In Radio Tarchira?

Radio Tarchira is a radio player application designed for Bangladeshi people all over the world. It is an alternative of the famous application, Player which has been used as a standard radio player in Bangladesh. It's the simple, easy to use and feature rich application. Details: Radio Tarchira is designed for the people who have no much time for using different players. Usage: After installing Radio Tarchira, open the application by double clicking the icon in desktop. After opening the application, you will get two windows namely, Settings and Play. Settings: On the top left corner of the window, you will find an option to change the radio station. You can select one of the available radio stations or select a new radio station by pressing the search button. Play: On the top right corner, you will find an option to pause or play the selected stream. To add an additional radio station, press the + button and select the radio station. You can select different categories of radio stations to add or remove them from the list. NOTE: You have to connect your mobile phone or internet connection to the Internet through a data SIM card to play the stream. You will be able to listen to the radio stations in three languages namely, Bangla, English and Italian. You can use the search button to search for a radio station. System requirements: You must have Java SE 5.0 or higher version installed in your computer. The application is supported on Microsoft Windows operating systems. Legal notice: All radio station, music and other content in Radio Tarchira are the property of their respective owners. Update time: I will update the application regularly. So, do not hesitate to update the application. Thanks: I'm very thankful to all of you for your support and feedback. You are the reason I love working in this platform. Raymond Lee Owner, RTG -- Raymond Lee Owner, RTG tarchira 10/17/2015 I just installed Radio Tarchira player, I have selected one station, but no sound, please explain how to play the radio, and explain why it doesn't play.. (I am a newbie in Bangladesh) Kimberly Davis 10/22/2015 @tarchira I think you have installed the player in a wrong language. When you are selecting a station, please check the language you have selected and play the radio. Victor Sohrab 10/25/2015 For quite some time I tried the player but it didn't seem to work for me. No sound. After reading the forum comments and Mr. Raymond Lee's reply, I tried the player once again and surprisingly it worked! Thank you for your quick
